◆ PROFESSIONAL EXPERIENCE

Web Developer
Sep 2023 – Present
NINETYSIX Solutions
Dubai (Remote)

- Developed and customized **30+ responsive Frontend websites** using HTML, CSS & JS**, 10+ WordPress sites, and 3+ Shopify stores** using Liquid, sections, and snippets converting HTML and design files into pixel perfect, mobile first themes.
- Built reusable Shopify sections and snippets that reduced theme development time by **~30%** and improved maintainability across client projects.
- Optimized store performance via image lazy loading, code minification, and asset cleanup raising **Lighthouse performance scores to 90+** and cutting page load times by **up to 40%**.
- Customized product pages, collection pages, mega menus, headers, footers, cart, and search to streamline navigation and elevate the user experience.
- Integrated third-party APIs and Shopify apps, fetching and rendering JSON data to power dynamic storefront features.
- Ensured cross-browser compatibility across **5+ major browsers** and resolved frontend bugs to deliver consistent rendering on all devices.
- Maintained semantic, SEO-friendly, accessible code and managed the full workflow through Git and GitHub version control.
- Collaborated remotely with designers and clients, consistently delivering projects on schedule.

Technical Assistant
Aug 2022 – Jun 2023
XandY Learning
Calicut, India

- Managed and maintained the institution's website and web applications, ensuring uptime and up-to-date content.
- Automated admit-card generation and student progress reports with Google Apps Script and mail-merge, saving **~10 hours** of manual work each week.
- Provided technical support to students and staff via the student portal and coordinated mentor activities.
- Authored documentation and streamlined recurring administrative web workflows.

◆ PROJECTS

Modern Shopify E-commerce Store

- Designed and developed responsive Shopify stores with customized Liquid templates, reusable sections, and custom product pages; implemented mega-menu navigation and performance optimization.

Responsive Portfolio Website — *irshad-alungal.github.io/web*

- Built with HTML, CSS, and JavaScript featuring a responsive UI, interactive animations, and optimized load performance.

WordPress Business Websites

- Created responsive, SEO-optimized business websites with customized themes and Elementor page building.

API Integration & Frontend Dashboards

- Developed landing pages and frontend dashboards consuming REST APIs with dynamic JSON data rendering.

◆ ACHIEVEMENTS

- **Fi-Pro Frontend Challenge Winner** — won the front-end development challenge organized by TinkerHub KMCT.
- **National-Level Project Competition Winner** — earned two national awards at SRISHTI'22 (Saintgits College of Engineering, Kottayam, Kerala) for the “Design & Fabrication of UV Dress Dryer” project, including Best SolidWorks Project and Best Analytical Project.
